

Client Research Need-Group 4

1. Department Name , Department Contact, email address, and campus address Mary A., Director NKU Education Center, MaryA@nku.edu MEP 147
2. Topic you'd like researched (please describe in a detailed sentence or two) The benefits for children (and parents) on attending campus-based child care centers/lab schools/preschools
3. Types of information you're hoping for (statistics, case studies, websites from other institutions, reports, or other?) statistics, case studies, reports
4. Do the references need to be from a certain time frame (past 3 years? past 5 years? Past 10 years? No limit?) Within the past 10 years would be fantastic but older is OK too.

Additional Information (for Group 4):

Here are some additional thoughts:

Retention rates of students who are parents (increase or no difference) if children are in campus-based care? **hoping to show campus-based care supports retention and graduation**

Work performance or attendance etc for fac/staff who take their children to campus-based care **may have to look at employer sponsored child care for this one hoping to show child care as a valuable student and employee service**

- Likelihood of kids who attend campus-based care going to college (higher than non-campus – based care or no difference)? **Hoping to show building school spirit/loyalty and alumni base**
- School readiness/performance at 3rd grade/high school graduation rates for children who attend campus-based care (if possible, in comparison to non-campus-based care) **may have to look at the difference between children attending “high quality” center (typically accredited) and not quality rated canterers hoping to show that a better start early results in better over all school success which results in being better prepared for college.**

Some buzz words:

Campus-based

Lab school

Early Learning Center

Employer sponsored

Some places to look or additional search terms:

National Association for the Education of Young Children

National Coalition for Campus-based Child Care Centers

ERIC, NEIR

University of North Carolina Chapel
