

Dr. Jessica Waesche

Instead of a discussion, for this module I would like for you to reflect on the experience of participating in the role-play discussions throughout the semester. You should write a 2 to 3 page paper (double spaced, 12-point font and 1 inch margins) discussing the experience and what you learned from it.

Some topics you may wish to discuss in your paper include:

- What did you learn from participating in the discussions as a clinician?
- How did it feel to participate in the discussions as a client?
- What did you learn about the experiences of clients who are seeking mental health treatment?
- Did participating in these discussions help you better understand the material?
- Would you recommend that this assignment be given to students in this course in the future?
- Are there any changes to this assignment that you would suggest for the future?

The paper is due on Monday, April 24 at 11:59pm. You may submit a Word document (.doc or .docx), PDF, or TXT file, or you may copy and paste your paper into the text box on the submission page.
