# Group Presentation Overview

Purpose

- The purpose of this assignment is to develop and present a synthesis of the program or project that you have created with your learning pod throughout the term.

- Please note that there will be no lecture during week 11 to provide you with time to prepare.

Group Presentation

- Your recorded presentation should be no longer than 7 minutes and it should include the following slides:
  - Problem (please include your Fishbone diagram)
  - Brief overview of the proposed program/project & overarching goal
  - Brief overview of your logic model
  - Two implementation strategies
  - One potential barrier to implementation and associated mitigation strategy
  - Knowledge translation plan
  - Conclusion

Formatting Guidelines

- Maximum 7 minutes

- Please feel free to use voiceover ppt (exported as video) or any other video software

- References may be included at the end (these do not count towards the 7 slides or 7 minutes)

- Please submit your video file to the dropbox in Quercus

- Please name your file as follows:
  - your learning pod name (e.g. Learning Pod 5)
